© Seiko Epson Corp. 2016.

Note: The above screen is not displayed if you register only one printer or scanner to Epson Connect service.

Step 3

Click [Scan to Cloud] - [Destination List] on the left side menu.

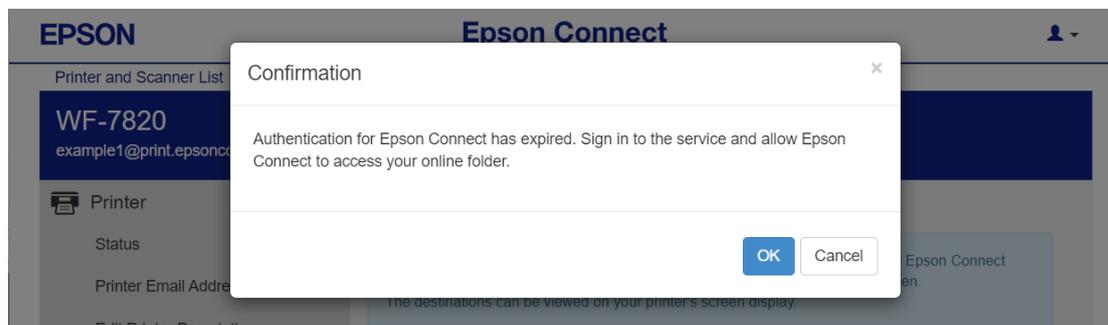

Step 4

When the Destination List screen is displayed, select destination for Microsoft OneDrive, and then click [Edit] button.

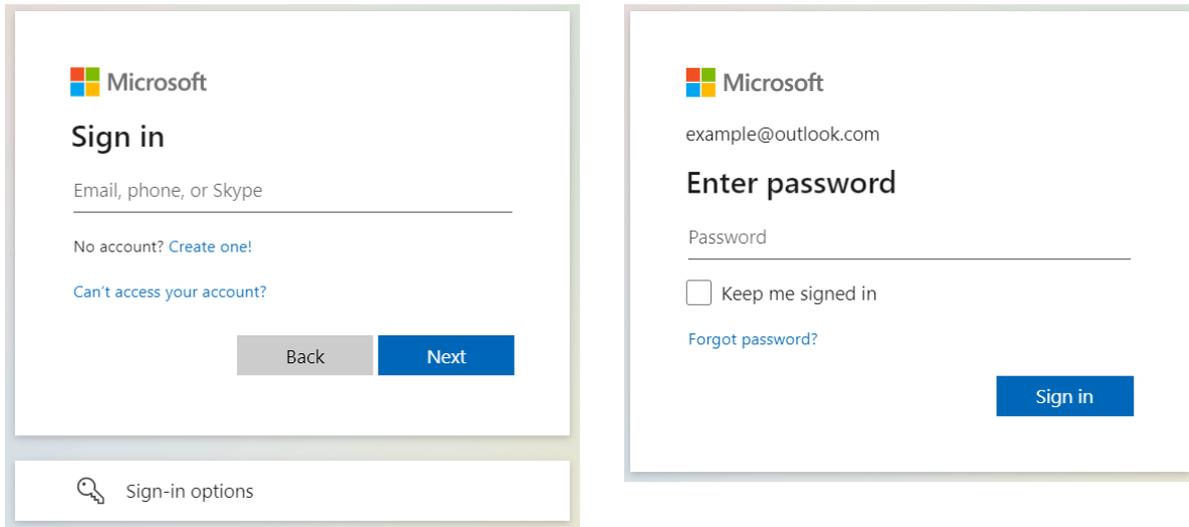

Step 5

Click [OK] button.

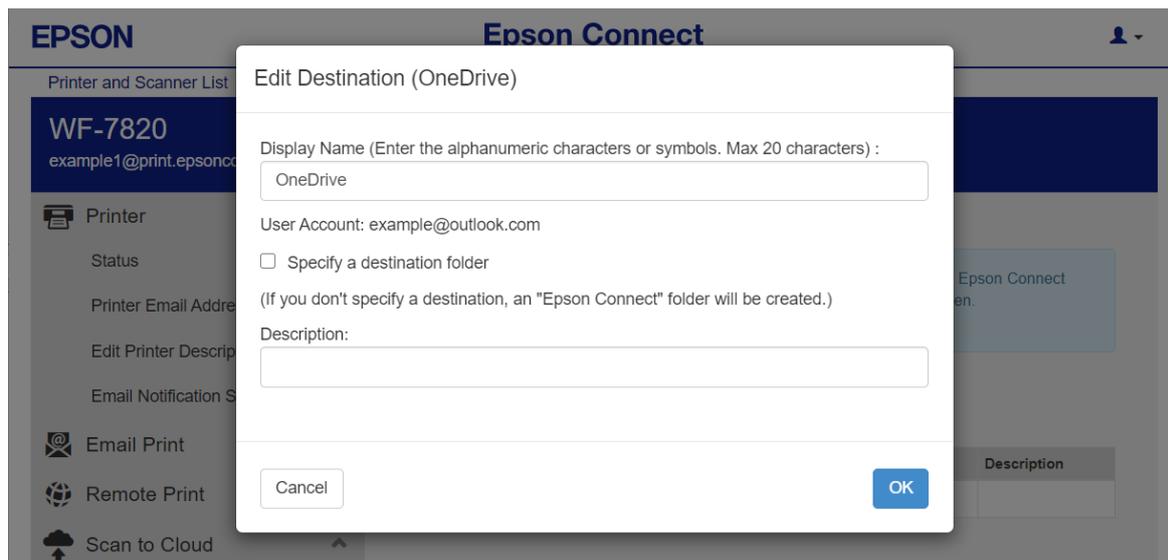

Step 6

When the Microsoft Authentication screen is displayed, sign in your Microsoft account.

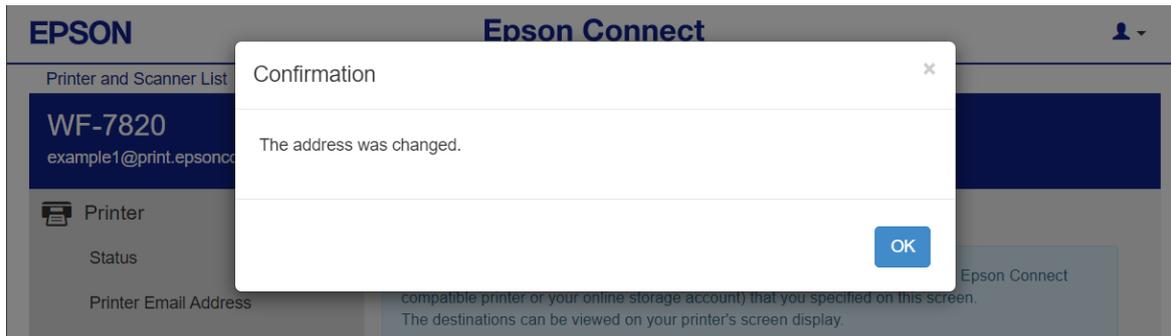

Step 7

When the Edit Destination screen is displayed, click [OK] button.

Step 8

Click [OK] button.

That is all for reauthentication of the Microsoft OneDrive destination.

If you have several destinations of Microsoft OneDrive, you need to edit for all of them.
